

TILT TOP TABLES

THE Gemini  
RANGE

eborcraft

Flexible and space-saving - that's Gemini, the innovative new range of modular conference furniture.

Gemini modules are easy to link together and just as easy to tilt upright for wheeling into storage.

*Rectangular and semi-circular combinations in Oak veneer, with Oak crossbanding*

For heavy-use environments, Gemini can be supplied with a high-pressure laminate finish which combines the need for durability with a choice of attractive contemporary colours.

For visual impact, it is hard to beat the beauty of real wood veneer, with its richness of colour and striking wood grain.

*Rectangular and trapezoidal modules in Light Grey laminate*

*Rectangular and trapezoidal modules in Cherry Shade 3 veneer*

eborcraft

The four Gemini modules - rectangular, semi-circular, annular and trapezoidal - are all designed to link together in any variety of changeable combinations, making Gemini a flexible and economic choice.

Modesty panels in matching veneer can be fitted as an option.

*Rectangular and annular combinations in Ash veneer, with American Black Walnut crossbanding, and featured with optional modesty panel*

Gemini modules can be tilted upright when not in use, and stored vertically in order to save space.

The tilting mechanism can be operated quickly and easily by one person, and fitted wheels make the tables easy to manoeuvre.
