

Cross Banding

For pricing purposes use the price band for the inner veneer panel ie the first veneer finish as listed below.

Birds Eye Maple/ Crown Cut Maple/ Black Line Inlay

Birds Eye Maple/ Cherry/ Black Line Inlay

Crown Cut Maple/ Cherry/ Black Line Inlay

English Pippy Oak/ Oak/ Black Line Inlay

First veneer finish indicates veneer on the inner panel.

2nd veneer is the perimeter cross banding.

Front Panel Combination Veneering

For pricing purposes the module price is based on the highest veneer price band of the 2 complementary veneers selected.

Low Unit Combination Veneering

Front panel is split in height with 2 complementary veneer combinations.

High Unit Combination Veneering

The front panel is split into three sections, the top and bottom section being the same veneer and the middle section a complementary veneer lined to match through with the veneering on adjacent low units.

Staining to Special Finish

Veneer colour staining is available with the fusion Counter system. Note the colour matching option may not be available on certain combinations of veneers when either the cross banding or the combination veneering option is required.

Veneer Corporate Logos

The option of laser cut inlaid veneer logos is available on all front panels and Privacy screens. Prices are quoted based on customer requirements. Not available on MFC finishes.

General Counter Specification for Low and High Units

All tops are 25mm thick edged with a 2mm edge matching edge. All modules are fitted with a front mounted flush 18mm thick modesty panel incorporating a recessed metallic kick plate. High and Low units are supplied with a reduced depth intermediate support panel fitted with levelling adjusters. For end modules, if required, the full width panel must be specified. Each counter module is supplied with connector bolts for joining module runs together. The units are supplied assembled.

Feature Fronts

The feature front is a 25mm thick plain laminate decorative structure.

Low Quadrant Units

30, 45, 60 & 90 degree. Tops are 800mm deep; the external radius of the top is 800mm. The unit comes as standard with intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Quadrant Units

30, 45, 60 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 800mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel.

Low Annular Units

30, 45, 60 & 90 degree. Tops are 800mm deep, the external radius of the top is 1200mm or 1500 with an internal radius of 400mm and 700mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Annular Units

30, 45, 60 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 1200mm or 1500mm with an internal radius of 400mm and 700mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel.

Low Annular Internal Radius Units

30, 45, 60 & 90 degree. Tops are 800mm deep, the external radius of the top is 400mm with an internal radius of 1200mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height concave curved modesty panel.

High Annular Internal Radius Units

30, 45, 60 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 400mm with an internal radius of 1200mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height concave curved modesty panel.

Low Radial Units

30 & 45 degree. Tops are 800mm deep, the external radius of the top is 2000mm with an internal radius of 1200mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Radial Units

30 & 45 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 2000mm with an internal radius of 1200mm. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel. The radial sections are supplied pre-assembled.

Low Radial internal radius Units

30 & 45 degree. Tops are 800mm deep, the external radius of the top is 1200mm with an internal radius of 2000mm. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height curved modesty panel.

High Radial internal radius Units

30 & 45 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top; the external radius of the top is 1200mm with an internal radius of 2000mm. The main top comes as standard with 400mm wide reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height curved modesty panel.

Low Corner Units

45 & 90 degree. Tops are 800mm deep. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height and straight modesty panel.

High Corner Units

45 & 90 degree. Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height and straight modesty panel.

Low Straight Units

Tops are 800mm deep. The unit comes as standard with reduced depth intermediate support panel for knee space. The units are fitted with a full height modesty panel.

High Straight Units

Main tops are 800mm deep and the counter tops are 350mm deep with a clear height of 400mm above the main top. The main top comes as standard with reduced depth intermediate support panel for knee space and the counter top with a reduced depth intermediate support panel. The units are fitted with a full height modesty panel.

Full width Wood panels

NB This option must be specified for any end counter module.

Glass Shelves

A 10mm thick clear toughened plate glass shelf unit mounted on 200mm high polished chrome support pillars for low units or 25mm high mounting for high units.

Privacy Screens

A 18mm thick veneered panel 500mm wide mounted to the front modesty panel to create a discreet level of privacy.

Under Counter Open Fronted Storage

Floor standing open fronted storage cupboard, tops and carcass panels all 18mm thick. Unit includes a single adjustable shelf and is supplied with levelling adjusters to allow cabinet to be fitted up to the underside of the counter top.

Under Counter Sliding Door Storage

Floor standing locking sliding door storage cupboard, tops and carcass panels all 18mm thick. Fitted adjustable shelf enclosed by locking sliding wood doors fitted with silver bow handle as standard. Unit supplied with levelling adjusters to allow cabinet to be fitted up to the underside of the counter top.
